Inspire or expire - a matter of life or death

Proefschrift

ter verkrijging van

de graad van doctor aan de Universiteit Leiden,

op gezag van rector magnificus prof.dr.ir. H. Bijl,

volgens besluit van het college voor promoties

te verdedigen op vrijdag 5 december 2025

klokke 11:30 uur

door

Maarten Albertus van Lemmen

geboren te Amersfoort

in 1998

Promotor

prof.dr. A. Dahan

Copromotores

dr. M. van Velzen

dr. R.M. van der Schrier

Leden Promotiecommissie

dr. A.M.M. Kraaijvanger

prof.dr. M.L. Bouvy (Universiteit Utrecht)

prof.dr. J.P. Rathmell (Harvard Medical school)

prof.dr. E.Y. Sarton

Table of contents

Chapter 1	Introduction and thesis outline	8
Part I	Understanding and detecting opioid-induced respiratory depression	16
Chapter 2	Principal component-based breath clustering for early recognition of severe opioid-induced respiratory depression – a pilot study	18
Chapter 3	Fentanyl-induced ventilatory depression: population pharmacokinetic-pharmacodynamic framework for evaluation of opioid-induced ventilatory depression	38
Part II	Naloxone	64
Chapter 4	Opioid overdose: limitations in naloxone reversal of respiratory depression and prevention of cardiac arrest	66
Chapter 4.1	Naloxone for Opioid Overdose: comment	86
Chapter 4.2	Naloxone for Opioid Overdose: comment	90
Chapter 4.3	Naloxone for Opioid Overdose: reply	94
Chapter 5	A comparison of intramuscular (Zimhi) and intranasal naloxone (Narcan) in reversal of fentanyl-induced apnea: a randomized, crossover, open-label trial	100

Chapter 6	Intranasal naloxone reversal of opioid-induced respiratory depression in opioid-naïve individuals and self-reported daily opioid users	124
------------------	--	-----

Part III	Respiratory stimulants	146
-----------------	-------------------------------	------------

Chapter 7	Pharmacology of viable mechanism agnostic respiratory stimulants for the reversal of drug-induced respiratory depression in humans	148
------------------	--	-----

Chapter 8	TAK-925 (danavorexton), an Orexin Receptor 2 Agonist, Reduces Opioid-Induced Respiratory Depression and Sedation Without Affecting Analgesia in Healthy Adult Males	170
------------------	---	-----

Part IV	Summary and future perspectives	192
----------------	--	------------

Chapter 9	Summary, future perspectives and conclusions	194
------------------	--	-----

Part V	Appendices	204
---------------	-------------------	------------

Nederlandse samenvatting	208
---------------------------------	------------

Curriculum vitae	215
-------------------------	------------

List of publications	216
-----------------------------	------------

Dankwoord	218
