Table of contents

Chapter 1	General introduction and outline of this thesis	7
Chapter 2	Epidemiology and clinical impact of confirmed respiratory viral infections in patients with solid organ transplants	31
Chapter 3	A retrospective test-negative case-control study to evaluate influenza vaccine effectiveness in preventing influenza among immunocompromised adults with a solid organ transplant	55
Chapter 4	Safety and Immunogenicity of Intradermal Administration of Fractional Doses of the mRNA-1273 Vaccine: a Proof-of-Concept study	75
Chapter 5	Immunogenicity and reactogenicity of intradermal mRNA-1273 SARS-CoV-2 vaccination: a non-inferiority, randomized-controlled trial	83
Chapter 6	Coagulation and inflammatory response after intramuscular or intradermal mRNA-1273 SARS-CoV-2 vaccine – secondary analysis of a randomized trial	103
Chapter 7	Intradermal delivery of the third dose of the mRNA-1273 SARS-CoV-2 vaccine: safety and immunogenicity of a fractional booster dose	121
Chapter 8	Establishing immunogenicity and safety of needle-free intradermal delivery by nanoporous ceramic skin patch of mRNA SARS-CoV-2 vaccine as a revaccination strategy in healthy volunteers	137
Chapter 9	Viral clearance, pharmacokinetics and tolerability of ensovibep in patients with mild to moderate COVID-19- a phase 2a, open-label, single dose escalation study	155
Chapter 10	Summary and general discussion	173
Appendices	Nederlandse samenvatting	195
	Dankwoord	212
	List of publications	214
	Curriculum Vitae	216
