Contextual Support and Quality of Life of Individuals with Intellectual Disability and Severe and Persistent Challenging Behaviour

Leiden University

Faculty of Social and Behavioral Sciences

Clinical Neurodevelopmental Sciences

The research reported in this dissertation was funded by a consortium of four specialized service organizations in care for individuals with intellectual disabilities and persistent challenging behaviour in the Netherlands (SCORE, Systematic Client Support Result Evaluation), i.e. Ipse de Bruggen, De Hartekamp Groep, Cordaan, and Ons Tweede Thuis.

Design/lay-out

Two paintings by M. de Block

Design cover: L. Verhaar

The cover art is a combination of two paintings made in different phases of life by a woman with intellectual disability and intensive support needs. This artwork reflects quality of life both in flourishing flowers and in art that took another form in more fragile times.

Lay-out: Parntawan Kidtam | www.ridderprint.nl
