Circulating non-coding RNAs in kidney disease

Proefschrift

ter verkrijging van

de graad van doctor aan de Universiteit Leiden,

op gezag van rector magnificus prof.dr.ir. H. Bijl,

volgens besluit van het college voor promoties

te verdedigen op dinsdag 16 december 2025

klokke 11.30 uur

door

Qiao Zhao

geboren te Jinzhou, China

in 1993

Promotor

Prof.dr. AJ van Zonneveld

Co-promotor

Dr.ir. R Bijkerk

Promotiecommissie

Prof.dr. P.H.A. Quax

Prof. dr. S.P. Mooijaart

Prof. dr. C. van Kooten

Prof. dr. J. Roelofs *Amsterdam University Medical Centers*

Dr. A. Tammaro *Amsterdam University Medical Centers*

Financial support

Qiao was supported by China Scholarship Council.

Contents

Chapter 1	General introduction and outline of the thesis	7
Chapter 2	Circulating non-coding RNAs in chronic kidney disease and its complications	23
Chapter 3	Association of circulating miRNAs and vascular injury markers with cardiac function in older patients reaching end-stage renal disease	59
Chapter 4	Targeting long non-coding RNA MALAT1 preserves endothelial cell integrity and protects against kidney fibrosis	79
Chapter 5	Y-RNAs and their fragments reflect kidney injury in diabetic kidney disease	115
Chapter 6	Downregulation of RNY1 in endothelial cells impairs vascular integrity	139
Chapter 7	Discussion, summary and future perspectives	163
Chapter 8	Discussie, samenvatting en toekomstperspectief	177
