Improving efficacy and reducing adverse effects of immunosuppression after liver transplantation

Bastian N. Ruijter

**Improving efficacy and reducing adverse effects of immunosuppression after
liver transplantation**

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr.ir. H. Bijl,
volgens besluit van het college voor promoties
te verdedigen op dinsdag 13 januari 2026
klokke 16.00 uur

door

Bastian Nico Ruijter

geboren te Duisburg, Duitsland

in 1987

Printed by Proefschriftspecialist, proefschriftspecialist.nl
Cover desing: Rens Dekker, persoonlijkproefschrift.nl
Layout and design: Jacolijn de Krom, persoonlijkproefschrift.nl
ISBN: 978-94-93483-10-1

Promotor	Prof. dr. B. van Hoek
Co-promotor	Dr. M.E. Tushuizen
Leden promotiecommissie	Dr. S.M. Arend
	Prof. dr. M.J. Coenraad
	Prof. dr. T. van Gelder
	Dr. C.M. den Hoed (Erasmus MC, Rotterdam)
	Prof. dr. V.E. de Meijer (UMCG, Groningen)

Table of Contents

Chapter 1	General introduction and outline of the thesis	7
Chapter 2	Randomized Trial of Ciclosporin with 2-h Monitoring vs. Tacrolimus with Trough Monitoring in Liver Transplantation: DELTA Study	19
Chapter 3	Tacrolimus is superior to ciclosporin de novo after liver transplantation: systematic review and meta-analysis	43
Chapter 4	Tacrolimus 4-hour monitoring in liver transplant patients is not superior to trough monitoring: the randomized controlled FK04 trial	63
Chapter 5	Epstein-Barr Viral Load Monitoring Strategy and the Risk for Posttransplant Lymphoproliferative Disease in Adult Liver Transplantation: A Cohort Study	83
Chapter 6	Primary sclerosing cholangitis and other risk factors for post-transplant lymphoproliferative disease after liver transplantation in adults	103
Chapter 7	Bacterial infections after liver transplantation and the role of oral selective digestive decontamination. A retrospective cohort study	121
Chapter 8	Summary, general discussion and future perspective	141
Appendix	Nederlandse samenvatting	152
	Curriculum vitae	155
	List of publications	156
	Dankwoord	158
