# **Acquired resistance in pancreatic cancer: characterization and exploration of actionable targets of a multifactorial disease**

## **Proefschrift**

ter verkrijging van  
de graad van doctor aan de Universiteit Leiden,  
op gezag van waarnemend rector magnificus,  
volgens besluit van het college voor promoties  
te verdedigen op dinsdag 27 januari 2026  
klokke 14:30 uur

door  
Cecilia Bergonzini  
geboren te Correggio, Italië  
in 1995

**Promotores:**

Prof.dr. E.H.J. Danen

Prof.dr. T. Schmidt

**Co-promotor**

Dr. E. Giovannetti (Amsterdam UMC)

**Promotiecommissie:**

Prof.dr. M. van Eck

Prof.dr. E.C.M. de Lange

Prof.dr. L. Heitman

Dr. M. Pegtel (Amsterdam UMC)

Dr. P.J.K. Kuppen (Leiden University Medical Centre)

The research described in this thesis was performed at the Leiden Academic Centre for Drug Research (LACDR), Leiden University (Leiden, The Netherlands). The research was financially supported by the Dutch Cancer Society (KWF).

# Table of Contents

<b>Chapter 1</b>	General introduction and thesis outline	<b>7</b>
<b>Chapter 2</b>	ABCB1 overexpression through locus amplification represents an actionable target to combat paclitaxel resistance in pancreatic cancer cells	<b>25</b>
<b>Chapter 3</b>	Targeting ABC transporters in PDAC – past, present, or future?	<b>69</b>
<b>Chapter 4</b>	Suppression of dCK activity is shared between gemcitabine resistant PDAC models	<b>79</b>
<b>Chapter 5</b>	Targeting Integrins for Cancer Therapy - Disappointments and Opportunities	<b>109</b>
<b>Chapter 6</b>	Prognostic Significance of Integrin Subunit Alpha 2 (ITGA2) and Role of Mechanical Cues in Resistance to Gemcitabine in Pancreatic Ductal Adenocarcinoma (PDAC)	<b>139</b>
<b>Chapter 7</b>	Metastasis: crosstalk between tissue mechanics and tumour cell plasticity	<b>187</b>
<b>Chapter 8</b>	Altered Mechanobiology of PDAC Cells with Acquired Chemoresistance to Gemcitabine and Paclitaxel	<b>217</b>
<b>Chapter 9</b>	General discussion and future perspectives	<b>265</b>
<b>Appendix</b>	Nederlandse samenvatting	<b>277</b>
