TABLE OF CONTENTS

Chapter 1	General introduction and thesis outline	7
Chapter 2	Correlations between bone marrow radiation dose and hematologic toxicity in locally advanced cervical cancer patients receiving chemoradiation with cisplatin: a systematic review	21
Chapter 3	Predictive factors for toxicity after primary chemoradiation for locally advanced cervical cancer: a systematic review	49
Chapter 4	Normal Tissue Complication Probability models for gastrointestinal toxicity after adjuvant (chemo)radiotherapy for cervical cancer in the PARCER trial	79
Chapter 5	PROTECT: Prospective Phase-II-Trial Evaluating Adaptive Proton Therapy for Cervical Cancer to Reduce the Impact on Morbidity and the Immune System	99
Chapter 6	Accuracy, repeatability, and reproducibility of water-fat magnetic resonance imaging in a phantom and healthy volunteer	115
Chapter 7	Changes in bone marrow fat fraction and immune cell counts in women with cervical cancer treated with primary chemoradiotherapy	129
Chapter 8	Dynamic immune changes after bone marrow sparing VMAT in women with locally advanced cervical cancer treated with chemoradiotherapy	151
Chapter 9	General discussion and future perspectives	175
Appendices	Summary	204
	Nederlandse samenvatting	208
	List of publications and conference proceedings	212
	Curriculum Vitae	215
	Dankwoord	216
