Prenatal vitamin D₃ supplementation: Pharmacology and offspring health outcomes

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof. dr. S. de Rijcke,
volgens besluit van het college voor promoties
te verdedigen op woensdag 24 juni 2026
klokke 11:30 uur

door

Iskander Leonard Constantijn Shadid

geboren te Den Haag
in 1997

Promotores Prof.dr. H-J. Guchelaar
Prof.dr. S.T. Weiss

Co-promotor Asst.prof.dr. H. Mirzakhani

Promotiecommissie Prof.dr. T. van Gelder
Prof.dr. J. Beijnen, NKI, Netherlands Cancer Institute
Prof.dr. E.C.M. de Lange, LACDR, Leiden Academic Centre for
Drug Research
Prof.dr. J.C. Seidell, Vrije Universiteit Amsterdam

Contents

Chapter 1	General introduction	7
Part I: Preclinical data		
Chapter 2	Vitamin D beyond blood: Tissue distribution of vitamin D metabolites after supplementation	21
Chapter 3	High-dose vitamin D supplementation alters tissue-specific vitamin D metabolite distribution in mice during pregnancy	59
Part II: Clinical pharmacology		
Chapter 4	Pharmacokinetic modeling of prenatal vitamin D exposure and the impact on offspring asthma and pulmonary function	81
Chapter 5	The impact of baseline 25-hydroxyvitamin D level and gestational age on prenatal vitamin D supplementation to prevent offspring asthma or recurrent wheezing	111
Part III: Clinical epidemiology and genomics		
Chapter 6	Early-life weight status and risk of childhood asthma or recurrent wheeze in preterm and term offspring	137
Chapter 7	Impact of maternal body mass index (BMI) and gestational weight gain on offspring's weight and BMI z-scores across the first 8 years of life	155
Chapter 8	Cord blood DNA methylation signatures associated with preeclampsia are enriched for cardiovascular pathways: Insights from the VDAART trial	177
Chapter 9	Early life gut microbiome in children following spontaneous preterm birth and maternal preeclampsia	205
Chapter 10	The relationship of fetal sex and maternal race and ethnicity with early and late pregnancy C-reactive protein and interleukin-8	231
Chapter 11	General discussion	255
Chapter 12	Summary	275
	Nederlandse samenvatting	280
Appendix	Curriculum vitae	288
	List of publications	289
	Acknowledgements	291
