Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van rector magnificus prof.dr. S. de Rijcke,
volgens besluit van het college voor promoties
te verdedigen op donderdag 10 september 2026

klokke 10 uur

door

Olivia Aurelia Catherina Lamers
geboren te Freiburg im Breisgau, Duitsland
in 1994

Promotor

Prof. dr. M. Roestenberg

Co-promotors

Dr. MA. Hoogerwerf

Dr. B.M.D. Franke-Fayard

Leden promotiecommissie

Prof. dr. J. Burggraaf

Prof. dr. T. van Gelder

Prof. dr. A.C.K. van Duijvenvoorde, Universiteit Leiden

Dr. I. de Visser- Kamerling, Centre for Human Drug Research

Table of contents

Chapter 1	Introduction	7
CHapter 2	Safety and efficacy of immunization with a late-liver-stage attenuated malaria parasite	23
CHapter 3	The path from early- to late-liver stage arresting genetically attenuated parasites as a malaria vaccination strategy	59
Chapter 4	What motivates SARS-CoV-2 vaccine trial participants? A pre- and post-participation survey study	87
Chapter 5	Risk in healthy volunteer studies: Does it matter if the agent is a drug or a bug?	117
CHapter 6	Creation and preclinical evaluation of genetically attenuated malaria parasites arresting growth late in the liver	131
Chapter 7	Single immunization with genetically attenuated <i>Pf</i> Δ <i>mei2</i> (GA2) parasites by mosquito bite in controlled human malaria infection: A placebo-controlled randomized trial	187
Chapter 8	Discussion	209
Non scientific part	Portfolio	238
	Nederlandse samenvatting	244
	Curriculum vitae	249
	List of publications	250
	Acknowledgements	252
