# **VALUE OF IMPACT MICROINDENTATION IN THE EVALUATION OF BONE FRAGILITY IN CLINICAL PRACTICE**

Proefschrift

ter verkrijging van

de graad van doctor aan de Universiteit Leiden,

op gezag van rector magnificus prof.dr. S. de Rijcke,

volgens besluit van het college voor promoties

te verdedigen op woensdag 23 september 2026

klokke 11.30 uur

door

Manuela Schoeb

geboren te Niederuzwil, Zwitserland

**Promotor:**

Prof. dr. N.M. Appelman-Dijkstra

**Co-promotor:**

Dr. N.A.T. Hamdy

**Leden promotiecommissie:**

Prof. dr. A.M. Pereira Arias, Amsterdam University Medical Center

Prof. Dr. rer. medic. B. Busse, University Medical Center Hamburg-Eppendorf

Prof. dr. N.R. Biermasz

Prof. dr. I.B. Schipper

Prof. dr. J.P.W. van den Bergh, Maastricht University Medical Center and VieCuri Medical Centre

This research was supported by a European Calcified Tissue Society (ECTS) Clinical Research Fellowship and a European Union of Medical Specialists (UEMS) Exchange in Endocrinology Expertise (EEE) Grant.
